

Repair Slip

Fill out the below information and attach to your pack. If possible mark problem areas with masking tape (please no duct tape as it will ruin the pack) and then ship (UPS works best if it is a convenient option), if you ship via us mail please make sure you send receipt requested so you are able to track package. Your pack will take approximately 3 weeks for you to get back so if this is a rush repair for an upcoming hunt than make sure to please note that.
